

Extra Credit

(Due by the Chapter 4 test)

Take a picture of a sign, poster, or other item that can be thought of as an inequality. To earn 15 free homework points you must include...

1. Picture
2. Explain why it's an inequality
3. Write the inequality equation
4. Graph the inequality

Example

This sign can be thought of as an inequality because the rider must be at least 54" tall but less than 76".

$$54 \leq x < 76$$
